HIGHLAND PARK CEMETERY

Notes on:
Highland Park Cem.
Pittsburg (Hobson) Cem.
St. Mary's Catholic Cem.

These three adjoining cemeteries in Pittsburg, Kansas, occupy the SW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Sect. 32, Twp. 30S, Rge 25E.

There are no visible boundaries between them, and the entire area is often referred to as "Highland Park Cemetery".

St. Mary's Catholic Cemetery is maintained by the Catholic Church, and is definitely separate.

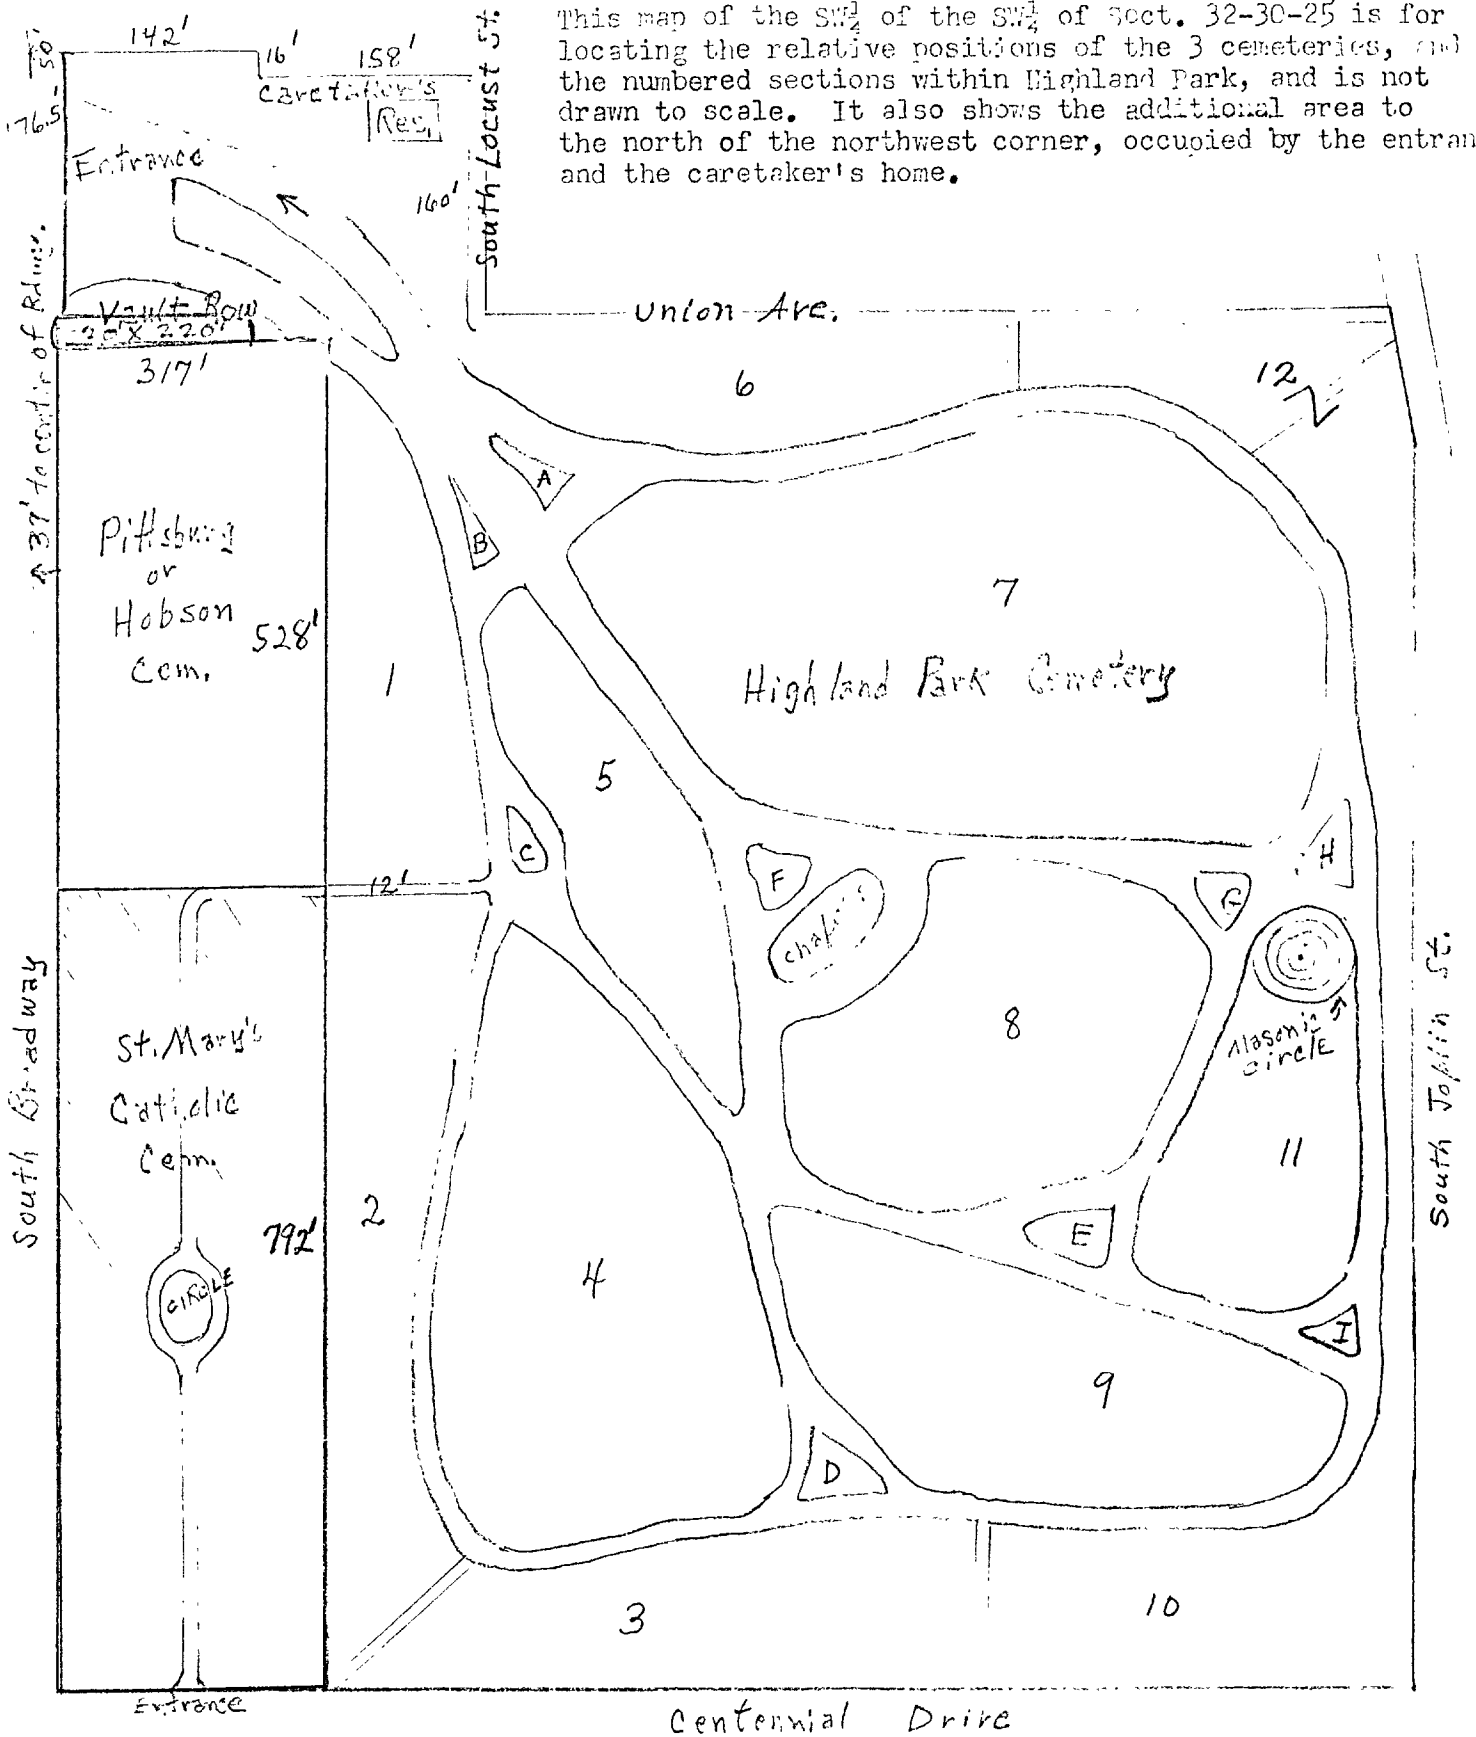

Highland Park Cemetery was begun in 1914 to the east of the other two cemeteries, and appears to have been platted originally 24th Oct. 1914, added to 9th Aug, 1916, and again enlarged 18th June 1928. A supplemental map filed 6th Apr. 1931 shows these 3 plats, and further states that Highland Park Cemetery occupies all of the SW $\frac{1}{2}$ of the SW $\frac{1}{4}$ of Sect. 32-30-25, except 317 ft. off the entire west side, which was occupied by the old Pittsburg (Hobson) and St. Mary's Cemeteries. A land deed also shows the purchase of an adjoining area to the north of the north-west corner of the cem., which is occupied by the entrance gate and driveway and the caretaker's home.

The plat dated 1931 did not show the Pittsburg (Hobson) Cemetery to be an actual part of Highland Park Cemetery, probably for the reason that George Hobson laid it out in 1881, so it had long been a public burying-ground. It is cared for by the caretaker of Highland Park Cemetery, and while they do not have burial records for it, they will dig graves there when someone presents a deed showing title to a lot. It seems to be often referred to as a part of Highland Park Cemetery.

These three cemeteries were copied separately and indexed separately.

Since St. Mary's Catholic Cem. is rather full, the south part of Sect. 2 (beginning with Lots # 71 and 72, and all of Sect. 3 and Sect. 10 (see map of Highland Park Cem.) have been set aside for the use of members of the Catholic Church. Some other lots in various places in Highland Park Cem. have also been used by Catholics.

This map of the SW¹/₄ of the SW¹/₄ of Sect. 32-30-25 is for locating the relative positions of the 3 cemeteries, and the numbered sections within Highland Park, and is not drawn to scale. It also shows the additional area to the north of the northwest corner, occupied by the entrance and the caretaker's home.

VAULT ROW

This is located to the right of the entrance off South Broadway. It is a strip of land 20 ft. wide N-S and 220 ft. long E-W, beginning 39 ft. E of the center of South Broadway, and extending 8 ft. into the old Pittsburg or Hobson Cem. to the S (which also has a 39 ft. set-back from the center of Broadway) and 12 ft. N of the quarter-mile line into the plat of ground used for the entrance to Highland Park Cem. (see map.) Vault Row is platted into 14 lots E-W, lettered A through N, from E to W. All are 16 ft. wide at the front except lot H which is 12 ft. wide, and all are 20 ft. deep N-S. There are 9 mausoleums built above ground on these lots. We copied them from E to W:

SECTION II NORTH PART (copied by Am. Cuthbertson 9-2-1975)

There is said to be a 3 ft. "no-man's land" between the E side of St. Mary's Cem. and the W side of Highland Park Cem. The division line between the north part which is not officially Catholic, but contains some Catholic burials, and the south part which is officially Catholic, is perhaps 18 ft. S of the S end of the tool house in St. Mary's Cem. The grave of John Raineri, being dug today, is at the extreme S end of the N part. The S part begins with lots # 71 and 72. Although the rows of graves continue through both the N and S parts of Sect. 2, we copied the two parts separately.

SECTION III. (Catholic)

From the SW cor. of this sect., the W boundary angles to the NE. There are N-S rows of graves through the larger part of the section, but there are 2 E-W rows of vaults with tops above ground along the S side, and in these 2 rows the bodies are buried N-S rather than E-W as is the custom in most places.

We copied the main part first, beginning with the first N-S row which contains a grave (probably not the farthest W row) and proceeded to the E. Although we numbered them, other vacant rows may be filled later. Then copied the 2 rows of vaults along the S boundary, beginning with the S row.

SECTION IV Due to the irregular shape, the rows to the W are shorter, and the first 3 rows curve to the mid-S part of the cem., along the driveway. Also, several rows parallel the drive along the E part of this sect., running from NW to SE. The rest of the area is in N-S rows. We began copying on the shortest W row, thence E, finishing with the diagonal rows along the NE side.

SECTIONS VI & XII

(copied by Wm. Cuthbertson, Sept 14 1975)

This area, along the extreme N side of the cem., is in long rows E-W, the graves being made in a N-S position, unlike most cemeteries. We could not determine the exact division between Sect. 6 to the W and Sect. 12 to the E, and since the rows extend through both sections, they were copied together. It appears that few burials have been made as yet in Sect. 12, apparently there are some vaults in the W end of this section, but no graves in the E part.

In the W end of Sect. 6 there are quite a number of infant burials. They are rather unevenly spaced, but approximately 2 rows make up an ordinary row. We copied all which seemed to line up with the ordinary rows to the E. Since there were a few burials of older persons within this area, we did not copy them separately, but included these infant stones as we copied the long rows through the entire length of this area.

(pict.) "In memory of our Daddy". Alonzo Herold Sayre Jan 30 1920 Apr 11 1945
Buried in Ittenbaugh Germany. He wore the crown of patience,
"What's a home without a father Through the years of struggling on,
All things this world may send, Those hands that rest forever,
But when we lost our darling father, Were the hands that made our home
We lost our dearest friend.

Father we are so lonely
We miss you more each day.
But you taught us to remember
That no one on earth can take your place."

SECTION IX (copied by Wm. Cuthbertson, Sept 20 1975)

This section is the 2nd from the S, in the E part of the cem. There are burials only in the W part. The rows run N-S, however the first 4 at the W end, where we began copying, ran off to the SE, following a driveway. Since all markers are the flat type, we have omitted the (h) and (dbl h) designations here.

SECTION X

Vacant. To be used by Catholics only.

SECTION XI (copied by Wm. Cuthbertson, Sept 20, 1975)

This section is in the E-central part of the cem., and has graves only in the NW and SW parts. The "Masonic Circle" at the N end of this section has a round monument in the center, surrounded by 6 rows of graves, which are vacant in the SE and E-central parts. We copied these circular rows from NE counter-clockwise to mid-S, numbering the inner circle #1. Next, we copied the N-S rows of graves which extend to the SW of this circular part along the driveway. Last we copied the few graves located at the SW point of this section. All other parts are vacant.

Masonic Circle, Row 1 (inner) Sect. 11 (Black circular monument has (G) insignia on E and on W.)
